TOP SECRET

This diagram shows an exploded perspective view of a circular device assembly. The assembly includes a top circular cover (60) with a central opening (78a) and a central protrusion (78c). Below the cover is a central cylindrical component (74) with a top flange (80) and a bottom flange (86). The central component has a central shaft (70) and a central hub (76c). The central component is surrounded by a circular base (62) with a central opening (76a) and a central protrusion (76b). The base is mounted on a larger circular platform (58). A dashed line indicates the assembly path for a component (150) which is shown in an exploded view. The component (150) has a rectangular shape with a central opening (148a) and a central protrusion (148b). The component (150) is shown in an exploded view relative to the central component (74) and the base (62).
